

Premises Identification with CCIA

The CCIA is encouraging every producer to obtain a premises identification number by reporting the legal land description (LLD) of their primary premises or operation in the Canadian Livestock Tracking System (CLTS).

What is Premises ID?

Premises identification is the assignment of a randomly generated, unique identification number to a physical land location referred to as a PLA ID (premises locator allocator identification number) or PID (premises identification number). Premises identification is one of the three key pillars to a traceability system. In order to track movement (move-in or move-out) or sighted events of animals to and from premises, a PLA ID or PID is required.

Why do we need Premises ID?

Registering your land location will provide the Canadian Cattle Identification Agency (CCIA) and the Canadian Food Inspection Agency (CFIA) with specific location information for a faster response to assist producers if an animal health or food safety issue should ever arise.

How to submit your legal land description information

There are three options to generate a premises ID number.

1. Contact a CCIA Customer Support Representative (CSR) with your LLD information by phone **1-877-909-BEEF (2333)**.
2. Email your LLD information to **info@canadaid.ca**.
3. Generate it yourself by following the steps below on the Canadian Livestock Tracking System (CLTS) website (**www.clia.livestockid.ca**).

Visit **www.clia.livestockid.ca** and log in to your CLTS account, the same account used to house your tag inventory and age verify your livestock.

Follow these steps:

1. CLICK ON THE HEADING "MY ACCOUNT" – CLICK THE "PREMISES" TAB

2. CLICK ON THE "REGISTER PREMISES" BUTTON

3. FOLLOW THE REMAINING STEPS TO CREATE THE PREMISES ID NUMBER FOR YOUR OPERATION.

4. FILL IN THE REQUIRED FIELDS (*) AND ANY ADDITIONAL LLD FIELDS YOU MAY HAVE.

Please note: there will be different required fields for each province, as land locations are recorded differently depending on the province. You must enter a minimum of six LLD fields.

CLTS Premises Information	
Short Name:*	<input style="width: 90%;" type="text"/> (can be used to identify this premises)
