

Bruce Mills

I am one of the directors for the Ontario Bison Association. I own and operate a 100 acre farm outside of St Marys Ontario, home to the Canadian Baseball Hall of Fame. Along with my wife, Shirley, and teenage children, Ryan and Rebecca, we manage a herd of 82 bison. I also work full time driving a cement truck. We ventured from dairy into the bison business 17 years ago and haven't looked back. We have met a great deal of helpful people along the way. We especially enjoy selling meat to customers from our farm and on Saturdays at the Stratford and London Farmer's Markets. These customers know what an excellent product it is and appreciate the hard work that goes into bison farming. We are the only bison farm in Perth County. Our journey into the bison industry has taken us to the West coast of Canada in search of bison stock and to South Dakota for the IBC in 2007. We look forward to what the industry has in store for us and the challenges it has to offer. We wouldn't want it any other way.
