

Our journey and passion for Bison began in 2007 at the Royal Winter Fair in Ontario. Since then our family has been in many directions with the best path leading us to our farm and our journey with these magnificent animals. Both my wife Michelle and I work off the farm at our "real jobs" so we can support this amazing lifestyle. We have three children, two of which are in University and one still in high school. Our son Tim is as passionate in agriculture and farming bison as we are and is currently studying agricultural sciences at the University of Guelph. Bison farming is a family affair in this house and we have been blessed with a great network of people and opportunities since the inception of this farm. The Ontario Bison Association is filled with passionate and motivated individuals excited to showcase these amazing creatures. I'm excited and honoured to be a part of The Canadian Bison Association and a member of the board of directors.
