Canadian Bison Association

Weekly Price Summary for March 18, 2021

Bison Prices Stable

With the Canadian dollar fluctuations, the global uncertainty, and the turmoil created by COVID-19, please confirm prices offered by buyers as prices may change daily.

Prices offered by Canadian buyers for slaughter in Canada range from \$3.70 - \$3.90/lb. HHW for Grade "A" bison bulls and heifers on very light trading.

Canadian buyers that have slaughter spaces booked in the U.S. are paying \$4.80 to \$5.00/lb. HHW Canadian for prime bulls and \$4.40 to \$4.80/lb. HHW Canadian for heifers.

U.S. buyers are paying up to \$4.00/lb. U.S. HHW for prime bulls and up to \$3.80 /lb. U.S. HHW for heifers from Canada for slaughter in the U.S. where slaughter times have been booked.

Canadian buyers of mature slaughter cows are paying \$2.00 - \$2.30/lb. HHW.

Although prices have shown a sign of strength due to the Section 32 purchase program in the U.S. returns to the producers are dependent on exchange rates, quality, transportation costs, and export costs.

*****Producers should research the parameters on which the prices are based. Parameters such as Canadian or US delivery, weight ranges, age etc. This will assist producers in comparing prices on an equivalent basis. *****
