Commentary

By Terry Kremeniuk, Executive Director, CBA

This report can only be improved with your feedback. Please send any comments that you have to either cba2@sasktel.net or diane.blandford@agr.gc.ca

Prices offered to producers in mid-June were stable with prices as high as $6.50 per pound HHW for Grade "A" bulls. U.S. buyers are offering prices that equate to $6.50 Canadian with returns dependent on quality, transport incentives, and export costs. Canadian buyers are paying up to $6.30 per pound HHW for Grade "A" heifers. U.S. buyers are offering prices that equate to Canadian prices with returns dependent on quality, transport incentives, and export costs.

Nationally, federal slaughter in Canada for the first 23 weeks of 2017 (week ending June 10, 2017) was up 3% compared to the same period in 2016 (4,501 animals in 2017 compared to 4,363 animals in 2016). Live animal exports to the US in the first five months of 2017 were at 8,138 head, 20.1% below the 10,191 head exported during the five months of 2016.

Marketers report that strong demand for bison trim continues. The demand for middle cuts has been strong with little build-up of inventory reported. US demand continues to be steady. There is a steady demand for bison in Europe, with continued interest building as the Comprehensive Economic Trade Agreement with the European Union comes closer to being implemented.

Canadian demand is showing some life with increasing demand.

The Canadian marketers indicate that present supplies of finished bison continue to be very tight.

Bison prices in Canada are expected to continue to be sensitive to Canada - US exchange rates.

Chart 1

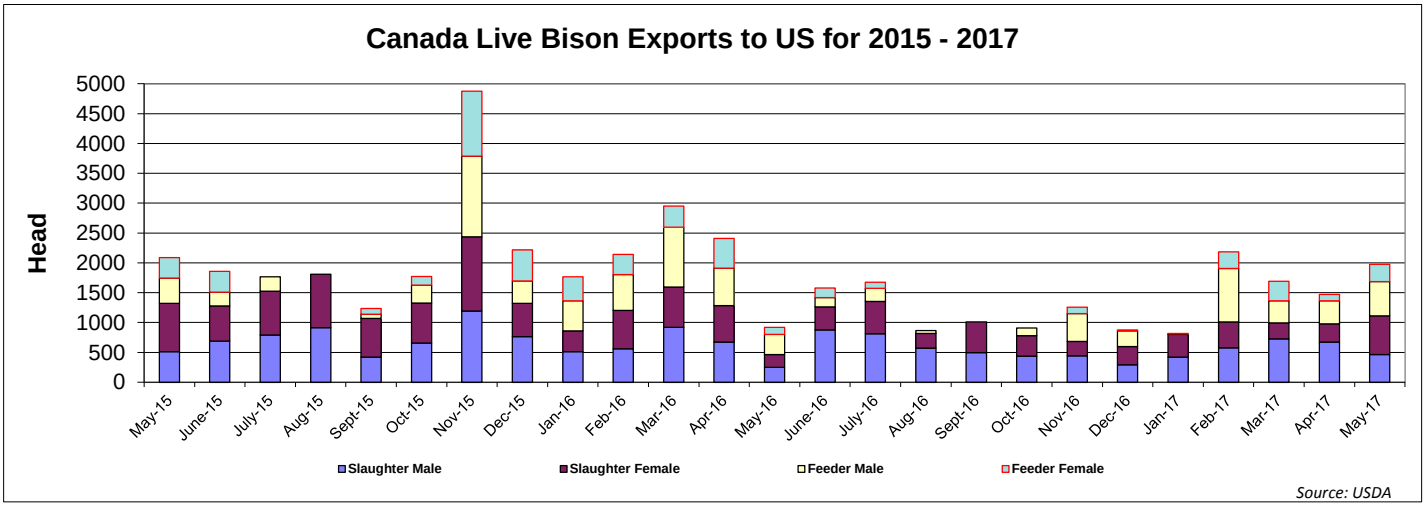

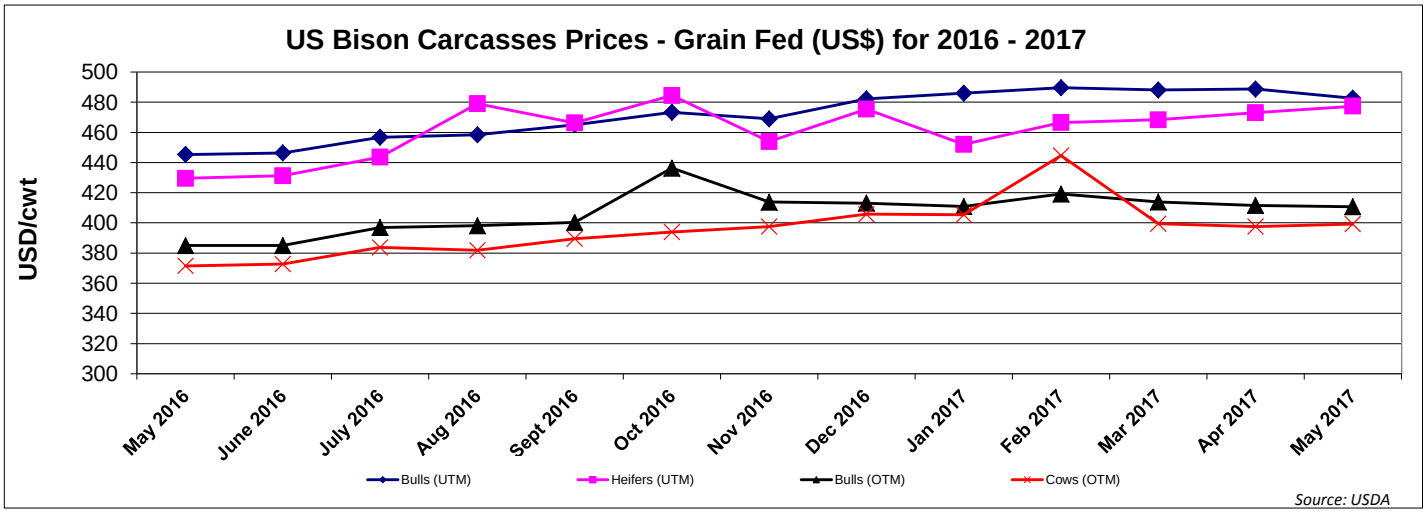

Chart 2

The Canadian Bison Industry by the Numbers…..

On another note, the 2016 Canadian Census of Agriculture data was released on May 10, 2017. Nationally, the number of bison farms and ranches reporting bison was at 81% of the 2011 levels. The number of bison reported on farms and ranches in 2016 was reported to be at about 95% of 2011 levels. According to the data, the average bison herd increased to 122 head.

Excluding the Atlantic region, there were declines in the number of farms and ranches ranging from 13.9% to 24.4% with the smallest decline in Saskatchewan and the greatest decline in Quebec.

Again excluding the Atlantic Region, the only province to report an increase in the number of bison was Saskatchewan (+2.7%), while Quebec reported the largest decrease (-35.4%).
