

**Greg Pagan**

Greg began in the bison industry in 2000 with the purchase of 50 calves while still working in Alberta. We all know the struggles of the bison producer after the start of the millennium so it took until 2009 before it became a full time operation at Torch River Bison near Snowden Sask

Greg currently runs a cow/calf backgrounding operation of about 250 cows in 3 separate herds & about 200 yearlings. He is currently a director of Diamond North Credit Union and Saskatchewan Bison Association along with supporting other community functions.

Greg is a strong supporter in the bison industry.
