Commentary

By Terry Kremenik, Executive Director, CBA

This report can only be improved with your feedback. Please send any comments that you have to either cba2@sasktel.net or isteadc@agr.gc.ca

North American demand for bison remains strong even though the summer season has been affected by poor BBQ weather in many areas. All cuts including trim are moving well. Some marketers are reporting some resistance from certain buyers as prices move upward. For the first 29 weeks of 2008, bison slaughter at federally inspected plants increased by 19% from 9734 in 2007 to 11,575 in 2008. To May 31, 2008, live bison exports to the US at 14,278 were up 81% compared to the 7,871 exported during the same period last year. Meat exports (mainly to the US and Europe) have also increased by 80% compared to the same period last year. Demand is expected to continue to be strong placing continued upward pressure on prices.
